## Fresher/Data Analyst

*Hi! My name's Ha. I'm a new in this field. Although I may not have prior experience in this industry yet, it helped me to complete additional coursework and training in data analysis. I have a good foundation in data analysis techniques and tools. I am a fast learner and I am confident that my skills, combined with my eagerness to learn and adapt, will enable me to make a positive impact on the company. Thank you for considering me for any opportunities that may arise!*

## SKILL

### Data cleaning, Extracting, Formating

- Python
- SQL
- Excel

### Data Visualization tools

- Tableau
- PowerBi

### Web Scraping

- Requests
- Selenium
- BeautifulSoup

## EXPERIENCE

**2016-2020**

### Part\_time jobs

- During my 4 years of study at university, I experienced a lot of part-time jobs such as waiters, PG in the market and supermarket, factory workers, and even English teachers for preschool children

**2021- 2022**

### Data Entry

- I worked for more than a year and also from here i discovered that I like discover data and quit the job to change my path.
